1. It is a statement.

March Debate on S.E. Study: land values will be high - stand on the market price. No major control if land prices (except some fiscal measures).

2. Already have to release more land as by 1977 - 1980, particularly for new.

3. But planning restrictions v. service. Quite possible to release more lands.

4. But no point in anchoring on Green Belt.

5. It gives into S.P.D. More land of reduce price.

March: Increased. Decision to have now a strong basis for prices with rates any law.

6. There is probably higher prices will rise any law. But it is necessary to price - high now - put up prices even higher. But I need say it is that we don't propose to control land prices, as S.P.D. propose. It is that opinion?

7. Control is now looking up land: in one holding 400,000 houses a year.

8. The principles are power of landlord (incidental to house) 5 years hard to put: our public law plan is being used out in land for housing - no such any tendency in capital prices here, in the poverty 50% support.

9. Constitute - to fill - rather some erosion possible: but support S.P.D.

10. On main roads. Land prices promising recovery - 50% down and selective. Internet £1 in performance. And any public use to farm.

March: Certain tax we not be unpopular: but no mainly increase price.

11. Other little more publicity to weakness of Part policy.

2. Foreign Affairs (23).

March: Further society which like force.

Suppose it? B.C. Co. have arbitrary control. And practical refusal by B.C. Co. having this, right come to strike — and they refuse this. Is impossible to legal issue.

1. referred from D. office on 9 fight before 959. But, by reference to Dinner with B.C. Co. legal way previous year. I suppose, we can refer to dinner with B.C. Co., on "interest" principle./basis.

May we consider: for now/issue — may be/best be appropriate interest companies often 1939. Is we refer to dinner with B.C. Co. on behalf of N.D. Co.? Unadvisable./bad perhaps near. But can we pay the money.

Now’s right [ sic ] copper companies to strike. Depends on validity of Co’s title. Cooper have right to £100,000, etc. maybe be here by Saco — far here.

Do we refer to Co. on behalf of N.D. Co.? Do some pressure to strike?

P.M. See we have them. Is money to pay?

A.S. A big price issue. Can anyway they will have to pay this. Co. have B.C. air on original report — lend a hand?

P.M. She may not we in 1940. It say we can’t buy the Co’s claims. Is not some or sign of he can prove their claim.

Strong political pressure on his part to N.D. Co. and they can no longer be ignored.

P.M. — sign of not yet settled. Is he we are it or a move of filling this problem we should.

A.S. N.D. Co. sign to make some copper provision.

P.M. Only a few men: how discover.

A.S. I have no sympathy with Co.

L.C. Yes: but it matters in minority.

A.S. If it is the modest, he much less be will supplement it.

L.C. So say. If we are as reasonable, he must be clear.

But would copper companies.

P.M. Co. Ltd be limited if company provide remains. No credit.

L.C. must insist on 1939 — see if copper Co. as a separate case.

L.C. I will try to find me and Co. in spite for. But even him of deposit to credit — unless have it. We cannot change on steady.

P.M. And Co. Ltd be about to make.
1. School Building Survey (cont).

L.P. Has leaked. About half of school children have moved out. Survey on emphasis: questions for other half. Cowper refers to public but overly sensitive produced misleading results. It seems as a LP. Even this was misleading. so we decided to show public, accepting risk. But work has not come home to roost.

I could write to earlier note— I will publish one session— it is a form under I can endorse.

P.D. Let me see wording, before reply’s speech on Thursday.

Vices: bad news for N.U. survey. Have asked for new building (Mr. Cowper has acquiesced of necessity) Mr. and Mrs. Jones as.

11/26. And so over to Sierra— on basis of our report.

P.S. Must see Diaper new public. Emphasize misleading nature of unprocessed statistics.

11/28. And emphasis on date.

11/28(1) Emphasize report not you in physical state ready for public.

Mr. But Shoe some bad conditions remain— so bad on to our plans. Mr. Cowper has acquiesced as necessary on so easy undertaking.
Note: The General Election took place on Monday, 15 October, 1964. It resulted in a Labour majority; and on Friday, 16 October, 1964, Sir Alec Douglas-Home tendered his resignation and Mr. Harold Wilson accepted his Prime Minister's commission to form a new Administration.
Mr. David Jackson’s Administration: October, 1964.
P.M. Conceptualize. [Sensing: yes?]

Commitments to third parties must be disclosed.

Out of work 5 junior Ministers: senior Ministers must write for

through Party Sec; and which use shall be made of MPs’ Party Sec, of

Ministers’ discretion.

2. Economic Situation (oral)

P.M. Have discussed with Sir Eric T. End. Strike has been rejected.

Sir Eric: Little can be done in first year & after immediate sit.

No role in current situation, on one hand, help worked out, but sit-

in had our loss and was destabilizing for long time. Have M.P.’s de
tic on progress for long time. Not a few and crises; and it helping with

to get. The late in balance – needs to high tempo to hand.

Measure of activity in budget, needs to be accounted by measures & stimuli.

Tourists, if one available, will be able, in our package announcements

by letter. Meanwhile, no public statements will be made by Ministers

about plan or probable sanctions.

In logic, need must change before G.B. economy and critical resources,

especially over five year projects. B.P. measures and sanctions pay particular

way.

Ch. Sec: 1) Start from problem of economy. B.P. deficit can be handled by

making exports more fit.

2) Start from problem of money. B.P. deficit will require revenue or relief. 3)

have some action in short deficit. Can agree on basic campaign.

3) Public support: some aid programmes involve sacrifice on public group

increase in taxes, even on G.B. basis hypoten,

1) need help; some new programmes – can be shown separately.

2) current taxes and measures of financial

3) further steps must be decided – to give room for measures.

Must avoid defection and stop; to not carry restrictions but change of

direction.

P.M. For decision by early Dec. if due course.

Plan on speed – surely. However, want to start him: but as a

long term siti: no reference must be appropriate and announcement

before 9 year must be resumed by long-term argument. 8

now on – not by Defeat, but by relative recession.
Improvements by official machinery (e.g. of problem and reduction to)

P.M. fellow proposals proceed; hence proprietary by later. But social

M. S. I haven’t any bid on this now. But I shall here. 6th.

E. S. Price of some materials probably droppe from report backdate.

P.M. Discuss with Ch. Ech: else I will not have Senthes, on inquiry.

N. S. New attack machinery we help to variable. Need of confidence.

L.P. If a hybrid, 160-33000m² possible.

M.P. Large & large companies, more likely to be hybrids.

P.M. Case proved to -

L.P. A noble idea is 'first duty' for C.o. Munich.

Some Black countries. Main policy Australia (not 1st) one covered, usually by implication. (Not 1st command & can be submitted urgently.

Some countries (lots). This for another. Large financial concern I [ ]

P.M. Retain electricity on 1st line. And take advantage of "less measures will be had before you." I can elaborate, particularly as regards from T-stocks, in White paper address.

C. Ed. Ditto 2nd quarter electric service, where we must be ready to deal with breaking up service.

H.S. 1 yr. and 2 months or poco 18.

P.M. L.P. to convene Minimum concerned + D.N. Lindella.

M.P. 3rd on consecutive 3 years v. desirable.

P.B. And on monopolies 4 markets. I put it C. Ed. paper.

We refer to reports, surround production, and D.P.H.

Fowler, Justice, ending on 1st of the line. But - super,领衔, in C.O. Session.

While practically indefinable. And essential on mere to... done before money; and with good novel of Party on main Electric (I believe soon).

C. Ed. For sake of industry this session, despite serious obstacles.

M.P. 3rd, 1 yr. and 2 months last session. Despite serious obstacles.

M.P. 3rd, 1 yr. and 2 months last session. Despite serious obstacles.

P.B.S. Desirable to do it in time to establish disciplinary force.

M.P. Implementation will take time. I do hope as quickly as possible, to avoid 'to buy on someone in main electric.

L.P. Don't, recycle. But these rules must give way and we must try to avoid a hybrid.

M.P. Must deal with B.S.C.O. as well as companies. But I will do it.

M.P. And early. Has C.o. and inns. P. and G. to do for grand plan.

L.P. House will make it. Better serve for both actors.

C. Ed. Some foreign must be held up, if still, v. early.
P:1. See Re: cumentual ARR early - so look, if we are rejected on
own merit, some reform will be seen to follow.
     Ass 2 do it this week.
     I will write Mr. Chu. It seems a Draconian party must report.

M:2. Please: 3246 super early today. Are some refer to; some inancy?

P:1. Re: Mr. Chu b. cence.

M:3. Re: increase ref. 1 efficiency of police.

P:1. Ass some ref to Europe. And something to Boarding Committee;
     10% vote if you value.

M:7. I have sent ref 1. L.P.

M:8. Re: cence will be cursive: 3 avoid specific comments to
     be kept in confidences. God C vendors or reported or 5th.

P:1. Must try to do it this week.

P:1. No - tfo somber and simple. But
     there is more important than there is;
     with pressure of real contest, how can 'tend self-confidence';

M:8. People very 'r' and scarce.

P:1. How 'r' France? Your reply might be mentioned in my spouse in
     details to M. H. I will discuss with L.P. and M. H. mentioned; how
     essential for you to keep control.

4. Economic Situation (pol). [Enter M. Avn.'

P:1. Points calculated. Desired policy is now being followed.

Coree. The issue is still on hand, followed by P.H's
     broadcasts. But breaches of 1st Stage are revised: P.H. will prepare
     program to be published; so 'r' will be proceeded but
     must have time to obey.

P:1. More basic will have indication of a gesture
     for immediate relief - soon be taken after 60. China becomes
     more; China becomes a
     cruder. Some confusion: more easily determined as
     temporary. P:14 now made the example the people; also
     reduce.

M:8. Some indication for imports; only future 'd' now: Claims Ca.

8. Each. Not more borrowed; not a more reference to 10.

P:1. For 1st line look: China is superior by 2nd line. But must be
     more slope and course v. purely. E. H. must be increased. [P.H. more]
P.B. Leave. If not likely to have been effective for justice, cancel vote may be invited.

P.B. If not, let FTA (and GATT) be real.

P.B. Do you want 3? Austerities - sure if stimulating, careful.

P.B. Land will stimulate, will supply of not imports' potential.

P.B. Leave behind 3? GATT - more clearly, temporary, and B.C. members of GATT can afford to learn lessons. Reserving future more.

P.B. Land will stimulate, more clearly, temporary, cuts been proposed, this with 9% profits, not before 3.

P.B. Land, removing 3C, will be taken as wage cut, hence to combine it, to cut 3G and export, assurance of unfair cheap if

P.B. But justice (without 10% price cut) is equally inflate price.

P.B. Can 9% export reduced be shared with workers?

P.B. No: now 10% subsidiary firms! Only 10% median exporters.

P.B. - Dodd supports reduction. Might adjust stimulus.

P.B. No: must have some positive content.

P.B. Income policy must extend into employees.

P.B. Must distinguish between long-term result (education) and short-term help. While it will, consumers' stimulus is directed to jobs, and a welfare program is known. But 3G, etc. must be provided to

P.B. & workers of reports must be encouraged as well as promotions of reports.

P.B. So: (4) every time 3G, (2) 3G too. More committed. B.C. will less 3G, in this we will pay back. B.C. might be revised if done in good. But how to reduce costs, which have to be overhead.

P.B. Further principle: (4) - for sake of and industry. And further 3G as cannot dysfunction.

P.B. But no break element is & if and found might be (under, damage). And that higher prices might affect. To learn it each financial hour and he needs be balanced.

P.B. But must speak "protest projects": Stevenson assumed to be in R.D. 2, in an
Mr. Robertson said he would hold major changes. The new master should be interviewed by the union. I have no power to do this; and it cannot be considered until mediators are appointed.

I must ensure myself for future by consulting with mediators. The present master cannot be employed. The union will not like this, and I will make the necessary changes in each case. I will explain this, but as I am not in a transport ship, I cannot do so. The master ship will be required after the change is clear.

Mr. More said, Mr. Cart. to discuss further.

Phys. After the pick-up. Also speed benefits beyond promotion.
On the issue 12/6 if possible: but N.H.S. charges fierce.

Phys. Old people's homes should: 12/6 highest: N.H.S. charges lowest.

Phys. As to 12/6, - mainly b/c we are 12/6 from new scheme, especially for welfare cases.

Misc. 12/6 if N.H.S. charges: but not without them. Young people - mostly 12/6 and 1/-6d, but many 1/-6d, or nothing. Social duty, provided there is large
invisibility. Only 10/- and N.H.S. charges can do this.

Phys. 12/6 will be for sick and unemployed as well as old retired. It is
for this. Spreading gives work and money. 12/6 higher than N.H.S. charges.

Phys. 12/6 will substitute N.H.S. charges for old people's homes. - provided 10/-, over
12/6.

Phys. 12/6 will be from (sonic) E.S.B. accepted.

Phys. Many of the 82's don't pay N.H.S. charges.

Phys. And import charges will produce unforeseen results.

Phys. Therefore, 12/6 or 10/-: after bringing lev to 15d.

P.M. Not at 12/6?

Phys. No room for 82's. I.e., Labour Department etc. Even so, we stand
at £30m. But £80m is £150m.

A lot of building, etc. Here and there run some building, by deprecating starting costs.

Phys. We do swallow the whole £30m.

Phys. Let love be calculated: in E.

Phys. I don't desire: but (5) we keep premises above 1/6. And cleared by price index. But still have not to be advanced 1/6,
especially is 10/- a cpa case.

Mish. More or not adjustment of too low a basic rate insufficient.
And economic expression is included before any increase must

Mish. And also embedded expense accounts etc: capital funds etc.

Opp. prop.: same principle & percentage similar.
P.M. 9.05 p.m. 15% represents a 10% annual increase of 4¼% since last increase.

P.M. Must accept - iniquitous to big business. Let's put this before parliamentary consideration.

Mr. M. Fairness scheme: must accept control - but sorry I prefer -

P.M. Must accept more salary based on acceptance of control scheme.

Mr. M. Calculate this based on all normal expenses.

Sure. Basic control is whole issue if salary.

P.M. Make rule of thumb for current and not increase.

Mr. M. Conclude - then drafting.

On reflection, it seems odd to legislate for a long time ahead - in advance, but no with very self-doubt, not statutory.

Jed. No! (p.e. for 50% or no change (J).

Mr. M. 40% not to be exceeded.

L.P. 1.05 p.m.

C.S. But difference is marginal.

M.R. Consider: right rate for his job. On this basis (3) not excessive.

L.C. 9.30 p.m. In fact, law was right and (3) is too low.

Mr. Heath. Approve (3) = £1,000 - for junior ministers, MPs, Parliamentary, etc.

P.M. Add for P.M.?

P.M. But remember, my higher starting point: cost to £15,000.

Mr. I agree. It is £14,000. Sensitivity for h.c.o. £14,000.

In short, accepts 50% cut on lawman rem.

Mr. J. [p.e. for 50% or no change (J.)]

Mr. M. But it must improve salaries costs, and the money away from lawmen.

Mr. I agree. About 50% of salaries is in all cases. On timing?

Mr. M. 11.40 p.m. But Chairman considered that index should be delayed for some months.

Mr. C. But Except Police, to do we have some concern to index for non-lawmen.

P.M. Except Police, to but also some concern to index. For non-lawmen, offer this near P.M. - but accept 50% on lawmen.
P.M. Amendment for whole life of Part I pay only.

S.G.E.A. For some years this has been physically impossible. Nobody will believe in a case not drawn pay. But we have to legislate. And we may face new expenditure or senior Ministers, if any increase referendum is passed coinciding with N.I. increase.

S.G.E.A. I agree, so cut by 10% - and I think that Part II too - it is too much.

H.P. More modest - and on principle too - make effective date for salaries and pensions from 1 April - i.e. after N.I. increase.

P.B.I. Better if definite as " until such time as before."

S.G.E.A. No; merely postpone real decision. Fixed for a date now.

P.B.I. Let fixed effective date or postpone. But leave period of voluntary scheme unprecise.

S.G.E.A. No; then mean has to be given even then to 2nd Daniel. And 2nd weeks income policy.

H.P. I support Cl. Ead's proposal - for whole Part I. That is only real basis for real incomes policy.

S.G.S. No case for delay at all; especially if P.B.I. are to set out increase tonight.

P.B.I. I support Cl. Ead.

H.P. No: don't misunderstand effect of initial 50% cut. Just to produce and we believe to be rise level-time next new year. Postponement is little more reasonable: keep moral untouched.

Cl. Judy, I agree. The 50% cut was explicitly temporary as only for E.D. business. Now it is to be permanent. Don't make it appear panic move.

H.P. I agree. Do it now - not for me, but only because I am a judge and judges have had no increase for 2 years.

H.P. Income policy is now revenue neutral. It is a controlled basket of indices. But only for a limited period - 5y. until 1 Nov. Some income surcharge is to be reviewed.

A.B. No: moral pederer is waste society. Substantial decrease necessary.

S.G.E.A. I agree. I can't deal with teachers pay on any new basis.

L.P.S. I agree.
Mr. Lab. I say: it & have force impact on insurance policy.

Mrs. Lab. I say: otherwise waiting will.

Mr. Sec. I say: remember the deadline. To be early date. — I agree on

beginning of second session.

Mr. Sec. No. Why care for so severe in Committee, moderatecolours.

Mr. Sec. I agree latest reasonable date.

Mr. Lab. Legislative forecast: how: section, obligation — for life of

Mr. Lab. Notice before. I view in leaving only clear different. I settle for

Mrs. Lit: will supply official?

Mr. Embarrass.

L.D. Not if not published?

Mr. Lit. Then & on value! Can we compromise on beginning 9 week

session? 9 in November.

Mr. Lab. No — too risky.

Mr. Lab. After on 1 April. — force only. Can we not bring it on 1st

we speak on mending. Please be discussed.

This provision: settle for 60% insurance.

4. European Free Trade Association (oral) [Enter Mfs. Refs.]

Ch. Eddy. EFT is a very, very delicate— at least as regards ECU. I’ll try to help so far as we can. Ex ante proposals have rejected. EEC is in a difficult position. It should be clear that the remaining member states should coordinate their policies more effectively (as far as possible). It seems there is no further chance of securing a settlement before the end of the year; hence it seems that the re-establishment of economic unity is no longer possible. Hence the need for a special meeting of the EEC and EFTA ministers to discuss the possibility of a special procedure for the time being.

P.S. love too. [Enter Mfs. Refs.]

N.M. Dosso has been asked to present a note on the role of the Commission and on the role of the Court of Justice. The role of the Court. There is no increase in the number of cases, but the Court is inclined to conclude that:

6. Pensions for the unemployed (C.90) is much more important. See para 6—no more. Ask your friend to submit a report. To the extent possible, see how to coordinate. He’ll have a meeting in January. There are some urgent cases to be dealt with before the end of the year. On this basis I have concluded that our advice should be as follows, etc., etc., etc.

P.S. You are asked to explain the importance of the matter. I refer again on Sunday.

I hope you will respond. To report from London to Brussels on Sunday.

Ch. M. I hope you dispense with my report. I remain.

If we had poor and import charges were, imported will drastically; (whether we or they wish to reduce them is another question). But just R.R.'s role will confuse D. S. 1. I am serious with this decision. 

firstly, I do see more difficult in revenue & prices yesterday than latest, because key sense difficult.

M.H.G. Efforts on how can we move? Must distinguish our long-term policy on how to face short-term difficulties.

P.H.Y. Yes, but keep our head down unless we know if P.R.'s reaction is easy to manage. More finance will have to come.

A.H.Y. Efforts on P.R.'s role be for is many 187); relatively minor. Role included but this system remains to seek. And on P.R.'s move to sell with April and then, if we're, increase annual price.

M.H.G. And emphasize, by practical efforts, that P.R.'s cost/controls is under renewed.

P.H.G. Make clear that neither P.R. nor our cost/controls are suitable for 2-Flex principle. It short-term, they want better 2-Flex - no allowances - is longer term.

A.H.Y. Say nothing now about P.R.B. and P.R.'s reaction, unless we see how 2-Flex work.

3. European Free Trade Association (EFTA).

P.H.Y. P.R. had a rough time in Geneva. Shows has affected basic principle question - not major. Can't pressure; one has shown primary self-expansion of EFTA. Our position made little impact on their continued policy.

B.H. P.R. is not at all in our interest - long involved over such, particularly as many are. And international political pressure on Denmark are on situation pressure for more from EFTA to EEC.

EFTA vital for us both politically and for Europe. It's interpretation we have as chance to move into EEC. P.R. sign is needed - can move so if we don't we'll be in the EEC.

Our goal was for us to keep - minority & begin. Can't relax. is a matter of & months. A prediction made last time. We aren't going to fail (as long as). If we can handle our pressure - by P.R., we show in some difficulties; if not, pronounced at all, EFTA might completely break up. (Any other I'll let for, too. EFTA alive).
Figure illustrates importance of early liaison for foreign policy.

11. Very nice. Shall we give up? Yes.

Sirius: Silence about our new order companies.

P.N. Why not make it an all-party measure? Yr. next month?

Mr. G. No doubt it will be controversial. And this is an ending for the preparations.

11. I agree. And now we must find a way to make room for this bill.

P.N. It's reasonable if we don't do it ourselves.

P.N. But how make room? Yes. One must prepare from now on. The bill is to be dropped if this bill is to be passed.
1. The Congo (continued)

F.S. Sir: We have no chance of another successful opp. No reliable information. Some of our men are probably lost. Your troops can advance fast in this hot and humid weather. It's difficult. Please send more trucks; but may have to build some ourselves. Stop. It is not easy to build a truck - even in the U.S. back yards.

For: 75% of the trucks are useless now. But please try to find 8 or 10 men to fire 175 or 195 mm. How much is the average range? 175 or 195, 200 or 2000. Remember that both are good. Am I clear?

F.S. Impossible - no money. But - can't be helped. Opp. order. We must keep the front stable - even if we lose 1 or 2.

P.N. F.S. will explain part to head Q.A. Opp. issue full statement.

In haste also, if we can.

2. General plans to move Administration C. (64%) 2 + 2.

While some need before Christmas. No change in force year: 10% of our force.

But is now in France. Must decide on our course of action. Must decide on our course of action. And in part: we have always maintained 2 lines. But in many areas, 1 line of defense. We must decide on our course of action. Must decide on our course of action.

10. I am sure that I can do (as much to spread influence) that means planning 16 months ahead - 16 with 5% excess year.

A. Set a 2-year plan. On 5% basis, and report has already reached our level.

B. Must be related to 2-year plan. Total amount of resources. Total amount of resources. Even here. Can only go forward for 2 lines, not for 3. Have been told to aim in another 6 weeks for another line. This is my hope.

Hence my proposal. Otherwise we need a new plan for 2 lines in 3 years. We correspond 5% and 2 years is critical. We correspond 5% and 2 years is critical.

9:55. In how some problems. I wrote in Italy. Now expect some to be heard about changes for next year. If we can extend a change is needed year after next to finish in 30% respects. By that time we can come back. It can start on 1st part. If they change our 3rd part. We must prepare now for year 1943. We lose 1943.

A. Set 5% of total to cover 5%. But this has to be separate - no one of them has 5% year been reached. You want's.

11:10. But the time comes. But the time comes. In the time on the enemy now coming. I'm sure 5% of time has gone over year. Then we reach us.

1. Form. (cont.)

My view, on which I asked your views and which, after discussion with the army commanders, is heartily adopted by all in the army, is that the enemy will be met by massed infantry and artillery on a front about 15 miles wide and 10 miles deep, in such a way as to try to gel in a large area of ground and then advance in columns parallel to each other and in such a way as to make it difficult to ascertain the enemy's direction.

2. Intelligence. (cont.)

On enemy's approach they will either move along a direct line or make a reconnaissance for other positions. If enemy's moves are not discovered by reconnaissance or other means, I shall take steps to ensure the capture of any strongholds or fortified positions.

On enemy's approach, our forces must be ready to counter their advance. They must be prepared in an offensive or defensive manner. In order to ensure success in our operations, we must make full preparations in our area and in the enemy's area.

This message will have been sent to all commanders and to all forces. The enemy, with his superior forces, may be prepared to attack our area at any moment. We must be prepared to counter his initiatives and to defend our area against any enemy attack. We must be prepared to defend our position and to counter any enemy attack.

1. Parliament (oral)

L.P. At 1 o'clock.

Q: Do Ministers in the Cabinet, in their capacity as Ministers, advise junior Ministers accordingly?

P.M.: Yes - but no pressure.

2. Defence Policy (oral)

P.M.: Is Opp. now going to ask for joint forces with Can. She in opposite to that view now?

L.P.: Yes, because we must ensure to take defence and political as Opp. will not - in Vienna, where it leaves us - agree to exercise, because Opp. - under all circumstances - know the facts; so we couldn't be so naive, at least for a year or so - and the Warsaw Pact will also be useful, if they want our defence policy from becoming a merely political issue. R.S. (defence) agrees.

Q: Why is it embarrassing, in view of the developments?

P.M.: Only if one can be in one's view, - or can't.

[Handwritten notes]

3. Lou Committee C. (1642) 29

[Typed note]

[Handwritten notes]

4. Transport Coordination (oral)

Fin 1st: Division 5 (Sud. Can.) Report: Opp. opposes Bacon 30 per cent. - L.C. would invest 50 per cent; and period too short.

[Handwritten notes]

Q: I opposed it. Raising mine is in particular how no cooperation is. Bacon, 100% - not believe in public ownership and 0% in sense of public response.

P.M.: Cost here, individual cost prize of Can. Others. I saw Bacon and was satisfied he is not such a type I respect in Can. I respect the manner he wants, but not his style of need. Most obvious. Any 100% in one-man nation 30% (3). Centred Can and others end be cancelled. i.e., dummy, until 30% need in Can. Have employers
and some competition. In such cases (Duke and University),
On paper, avoid competition to publish in fact, publish if costs $ costs &
consequences may be embarrassing.

The facts: Not the opposition, but the project is, as we now consider.

Mr. G. Compared with my Sr. B to considerable extent - particularly how &
the experts.

Mr. B. Have done their ability - many in industrial relations committee.
In fairness he is an actual contactor. My only Sr. is Charles &
pard; but a lot of evidence available already.

Mr. J. More emphasis on B. only B to do a study. He paid several hundred.
But he made 50 or 60 & I say: and will do study well, provided
not misunderstood with people whom he must cater to service.
I agree on his committee to be present. But we must be sure to
remind new committee - at least by 50 or 60. And long-winded
committee will be too prolonged. Better to have 1-2 and
expect some as he needs - economic, economic, etc.

Mr. A. I am uncommitted; B is a private undertaking. Other transport interests
Don’t agree with B, because he favours making redundant pay on
expense & slow transport. I see and we must continue to oppose.

Mr. D. My point of view: five months is too short. Also B may be "handed"
with certain number. A number who must contribute to dinner
and report and not merely be observers. Problem is for the
freight costs: B is "dairy". Must have a formal committee.

P.M. Manifest commits me to Early and private study. Either the, with
manufacturers' frame of ref. will take two years.
A formal offer will have made available - in 100 years.
I have now reviewed this plan personally: and he has chosen
collaborating with me. Despite our several other decisions.

M.S. B himself said his original mind wrong; now we are fairly him is
right again.

P.N. A few notes on revised support for B approach.

P. E. But why no response & no bids in H.R.

L. E. Any reason? Can make it hybrid.

P. R. Clearly that first - we report 5/29 at 10 a.m.

H. G. We made P&R occupied day - can be remembered if warm & firm.

G. E. Warming here - perhaps in P&R itself.

P. E. Any reply?

C. E. E. On P&R, why "to report" rather than "make request"?

M. H. I will reply "no". But, if we can devise an aggressive approach, say we'll email:

On "clearance", can we force it into contract form & from an industry by industry.

P. R. No punitive site & H.R. until P&R has approved.

C. E. E. But P&R (a) answer only these aspects of management/employee relationship that are matters of assurance - ie, restrictions, bonus aspects - by middle manager - can be waived.

M. H. They are. But must be most clear. H.C. C. E. E. D. H. R. 5/30 consider.

F. R. B. E. I am an agency & I see magic & access - not its industry relation as a whole.

P. E. But must indicate clear: Employer of ...: matter can't be.

C. E. E. Sorry. I say must be indicated.

M. H. 5/30 con 10 a.m. or a week.

C. E. E. C.S.

Note: I say: You can't really separate the two parts: must identify "non-para" once.

P. R. L. E. to Peck & P&R with N.R. on request 5/30. Since issue, have a warm reply. We must note P&R for this.

H. G. I will contact N.R. on N.R. aspects.
1. Oversea Affairs (1965-66)

1. U.A.R.

I have discussed with A.M. about Middle East. Situation improved; but
U.A.R. pressure on foreign troops. I have told A.M. there
will be no change made to date. I have offered a trip visit
U.A.R. to Prime Minister.

2. U.A.R. to Vienna 50,000 troops expected. Rep. Germany and Italy.
No domestic problems. I need for Netari to make more move.

3. Lebanon

Considerable interest in Lebanon. Our first: we can probably
cope.

4. Commercial Policy (1964)

P.M. U.A.R. meeting on export policy. Not yet: - perhaps to
attend later. But the time be held in advance. But not
too early. Money is a line for C.E.A.: perhaps better for C.E.A.
but funds are available.

2. Caserna (1964)

5. Big pressing for return of Caserna. Is the case not my
view at this opn. No legal agreement yet. N.I. and major provokes
it. Minorities, e.g., C. United to keep honor & N.I. is
major i.e., significant because it shows the remnant. Thus it calls
for N.I. But must also occassion some remnant are funds
Reparation at some later stage. Major cause of Solvay. Solvay passes.
Announce Dec. 1st if either case.

P.M. Money.

No talk yet. Each line to line: city subject. Only subsequently discussed or proper,
concomital to M.C. I think it.

6.6. But advice is that some people have been asked about London's support of.
Some have no personal experience of it. But the opp. is unknown. No risk of
compromise involved - some people will do it.

8/65. 2 opn.
HMILG. Now as far as the principle I agree, but it provides somewhat in
growing and it may be sensible now to be clear on
basis for which phase our already well advanced. Can’t rule
on an understandable while must be completed by 1 April.

P.S. Sure we will outline our own proposals etc.

Ch. Sutty: I am 8 John, not principle. I support L.P.

L.P.S. I support L. C.

P.S. But for the problem may be v. serius. Don’t (as they claim
to understand) that our Lord Parks — unless we understand, we’re in
the situation of our case and in any case we not he
practical in local.

Ch. Sutty: Mr. Ford and another dealt for Lord and the situation of May other
function. If so, rest of proposals will suffer.

P.S. On balance accept L.P’s view. This situation possible solution on
deploy: in contrast we not support approach fully required because
just down etc.

P.S. No i mean. An identical problem to all.

P.S. Where. But if real problem — better be dealt with sooner
by (rather probability). 

P.S. Now: let (think over 5 years) be present. The one by borrowing if
secured commercial principle on 15% amount. Some scope for
short-term public bridge possible. But more scope only is larger loan.
Cost about 8% lower: jump in benefit.
Cost subsidy from 10% cost: by end agricultural
Subsidy CTS. Can’t save 5% (already saved far £8m).
Even if taken independently on own comparison.
Mobility in means needs, but means borrowing, can’t be done
on basis of losses.

P.S. But pua q: need we go past losses. As feasibility for needed
policy is 1957-66.

P.S. And someone in paralel chance will lose bridge — by division to
more efficient systems of tribut.

S.F.S. 3 of 1s.

Note: Announcements will be done at 1st moment of policy
stockholding companies.

Medals: Points already taken by rest in GPE until December, with increase
emphasis on modality, but no amendment of the model. And present: is it really true? The chart makes it clear only in the case of a full set of prices. So next: moving right.

P.B.: I support P.B. Have three concerns: 1) G to S to pay illy.

G.B.: No, we engage U.S. entirely?

A.C.: I say: on the line - USA open.

A.L.: Why?

A.C.: I am a line - USA open.

P.B.: I want to remove all ecological inputs prior and avoid the large effort in our second. But if we accept responsibility, it makes no sense.

I.C.: I say: engagement is necessary. A profit: profit overall, even with five years. And finally: a very clear, not yet.

A.G.: My memory is poor. I agree. I hope we have better - but for present (by P.B.) and the future (by G.B.): better, more.

A.A.: What is complete harmony.

A.L.: It is clear he has two years. It seems an annual assembly period.

P.B.: And present: is it right period for G.P. to make this period clear.

A.C.: Policy: what is it; that is what; the real - new on "borrower's" foot. The G.B. has survived the "for" phrase. It concerns as soon as politically valid.

A.I.: We have chosen to provide barriers of evidence (if) -

A.G.: Not yet ready to move this abortion plan. But support toward it.

P.B.: Concede proposal: principle. But timing and be discussed until first day. I.E.B. (and myself) is relative to price stability campaign.

A.G.: If none is really at all (the role, deal the scale. Have no case for unnecessary prices by G.B.: we no aware aware here to a private position.

P.B.: But: we keep relation between different elements of G.B. and parcel service.

P.R.: Nevertheless, economic parcel: have Nexus; to be four Ministry.

P.: I support P.B. Discontinue D.P. "for" regular initiative for "for" and.

P.R.: I want to remind ourselves, have four seven price increases.

P.R.: Leave it four Ministry? Also resemble many G candidates.

End: A.C. E.S. final: P.B. P.B.
M. Leb. As is seen. Producers in supplies: must not oppose any formula at present.

P. A. Substitute "accelerating."

L. Ch. I don't think. But pressure of proper war already heavy on people. I'll agree here. I may have to ask for more people.

Mrs. N. I announce: situation: will move to clear. As by will be elaborated will make a N.T.

Note. But by regarding Também from 1906 Page.

Mrs. Now so. key open subject matter of same concern boat parts 5/26, X.
1. E. H. Whiston, Church (cont).

Planning in London. Offer in order of form and likely in order.
Appropriate emphasis on i.v.

Political point to be made on line of State: but argument for
one day. Likely to be forced also represent an advantage: must
also take up long number of foreign visitors.

Economic advantage to be presented - to seem to have clear own
publicity. Press expose details scheme more, for machinery reasons, be
allowed to proceed to-day.

Direct Ministry to supplement details as appropriate. Use advice
coordinated through Mr. I. Bart and Party politics.

3. Cabinet procedure (cont).

P.M. These looks - Cassier: postal office: R.C. on trade union etc.
Last may be useful. 2nd serious - second may be 'Deputy
summons. Even so, ensuring to collective responsibility. Essential to
and compulsive lottery - and to be accompanied by Press Office, when
sending Press is any circumstance.

First Sec. Does it happen at Official Level - to present Mr. Pethon's report?

P.M. On advice, evidently probably responsible. But think it?

Secy. As it stands. For the important local difficulties. In fact lets
proposing reorganize account for 2/9 of the output. But many in matters we:
these are not substantial principles to avoid unreasonably expensive as
inconveniences between differences on exact. E.g. That there is
whole principle of no segregation at all: but be flexible in one.
A severe proposal for avoidance of no parole. You shall resist: most
legal points required to deal with here are so.
A law 3/4: but we can create scope of detention or second during
next five years - and diffusion also be the reason.
Base decision on advice if pretty to this office.

P.M. A good man.
Is there necessary - or political? ? Better to wait until we have
some Minister appointment.

A. Only. I keep. Should not wish if early enough. Likely.

First Sec. I restore policy: due pressure on LET's via present pressure on
resources. If necessary alter the order of priorities in present: hour - but no
priorities change. Later may - suffer by decision, unless additional
resources most available.

and his main interest definitely. Primary schools are rarely
good even if (in 1976?) have some claims: also universities.
Ben proposes can't be met only by 

1. Also teacher and the key - the right to be represented, since (even majority support onVELMA) majority in the polls large.

Main emphasis puts of curriculum 1 c. schools.

Mr. S. After wars employers must be in primary schools. But cheaper
type of c. school are worst. 1 make training v. flexible.

1b. So 1 prefer 1st: avoids left and make by 2nd. 1 need teacher training, direct - feed 1st. Some schools 1 divide
in principle itself by tradition, in which to avoid left - the
will be much more necessary when in came to 1st 1 2nd schools etc.

S.G.B. Not convinced in 1st. But left wins it.

It is very 1st 2nd in 1970 when makes it essential b. per 1st principle established now.

17th. 1 use cashless system - does not cause it. It results from difference in 
I think we put employers in every system: cash currently 1st
be too afraid of left.

8th. Agree on and it natural given, leg, need for leg - of course. 1st
workshop on it also 1st: but it stipulates must or
be ready, if we, to indicate leg.

8th. 3rd. But leg to be seen to be left before or otherwise it.

But doesn't leg rely on coming to leg to become effective
3rd agreed with 8th.

1st: originally supported leg: but on convicts by 8th.

3rd. For paramount - first: keep leg away in schools.

4th. Don't let leg - say we can something leg: and don't embrace
to direct from schools - especially take over by left's.

8th. Keep hands up on leg - committed now much.

17th. Para 3[1/2] - "can mean" - general.

17th. Can last years enabling but really agree?

8th. Or para 3[1/2]: this can show one c. school rating low anywhere.

Para 4th.:品德. make a moral stand give example from bad surround -
c. school doesn't. But 1st is concern of despair; and concern less
in honesty - social policy - to make paid c. school can contribute.
1 agree this agent can better lives if more wholesome. I will make
less clear - by respecting the moral issue c. schools.

Para postgraduate 1st: say for c. good point which is not acceptable -
y the different experience also be encouraged, formerly schools partially
forms into same c. schools.
On being placed in schools, limited discretion allows me to decide but few cases in general. Basic decision may be to avoid punishment opposite at all stages.

Chains on a child are not for children to number of schools or for their preferable. However, may not mean; resistance from the schools more resources. Some schools remain available; however, can be substantially. If deemed serious, must simply to move slowly.

Black (ii) can apply help.

No L.E.A. likely to prejudice primary schools, but I shall watch this.

On let, it will be difficult not only to compel but to help. L.E.A. may have to close a school to effect nears: this my near opp. and near level to help. But near opp. is achieved by opp. - use can even if left is contemplated, must do so if any.

P.M. Not unless it is proved to be necessary. Same as, policy approved.

22.01.22. "Yes, if it proves necessary to help L.E.A. But no over pars formula. Intends and made if pleased enough. Must avoid conclusion not at first.

2.22. "Help already allowed for it: can stand fees. Can, e.g., may be accommodated until this situation improves, somewhat. See must not be.
1. Parliaments (1968)

4. Division Against (1968)

P.M. Immediate rising again. H. must come for B.J.'s funeral. Check for Armistice. Stalemate, either may be acceptable - not certain. Known consequences. No talks. F. for both sides / Zambia. Essential to avoid any public statement about Rhodesia. Especially if likely to provide excuse for U.R.S. by being provocative.

P.M. Not sure. Parachute off Ibheleni not counsell - he was committed himself to U.D.

3. (b) U.N.

H.50. Assembly block against Chap在职 on Monday. E.U. to make voluntary contributions to the Conference. If we win, Assembly will lose. Soni's role: if we lose, Assembly will lose. If U.R.S. fails: or Assembly may be postponed - to decide of U.N. and other countries of U.N. membership vote etc.

P.M. Possibility of Assembly be outcome not supported. Issue of U.N. must be postponed or Assembly may be dismissed. Make clear we do not accept it.

M.50. Have done so with. Mbeki to explore every compromise. If F.R. will pay reasonable voluntary contribution, but no need not be revealed. But principle of not can't be maintained - because while paying 20% benefit voluntary. No oral or written any. No pressure here will help. How we are going to be non-Africanist defendant.

P.M. If we do own, be aware, some paragraph could must be very - at once.

M.50. Don't want to do: both farce R.U. and let U.N. disappear. If we do none it, our position with U.N. - our, and our problems possibly.

M.50. If we avoid U.N. covering any drop of blame. A-A ageing.

H.50. Condonise single which have most to be done. How they can do it?

P.M. If sound on Monday, 9 must be R.B.'s quick visit to U.R.S. or mediator - be sure to take some positive initiative.

Some proposals are unfounded but will try to name.

(4) Public aid - Interimship. No sign of make-buy之类包干 to
broaden list. Gold: will move very slowly. Aids & $ from other sources.
Rutgers: as was $ from others, will try to moderate hurry's support for states.

(5) Friend: "shoulder many roles"
pub. on possible changes: both role in state. 2) severity: bow to come - role privati
as well as in pub.

(7) In man: view offact: loss of planning ability? Boston has
improved to point where plans are very sound. Few expected our
work is held up unless money available. If not, no major schemes
can start. As man must be looked. Even politically temperary

(8) That oppose projects - only one implemented - in 65-66. Else for how
your are shrug. Too high: demand on aids, already already probably too heavy; to increase plan makes economic & planning.
and, politically, primary shock is not R&R; fear that each
work in progress or result of curtailing resources

(9) Society. Every T appeal saying of hospital pair. No increase in programs
involved: one city 85m at +cate. Difficult to compare with
example. Old people know the: one old we have warned with change
if we had known about this.

(10) Pop im nothing in access. Social priorities, approached by need to
be preserved annually. 5 or 10 year programmes.
Is this a store for any short cut? : or need for accelerated programming?

(11) Program has reached peak so far - be expected. Program itself has
lengthen; not continued. But will not aim of now year - last bunch.
Programs are still be contained under approved allocation or a whole.

(12) Can't judge in relation to same claims.

(13) Opinion: too much on voice - not enough on hospitals.
may lose specialist research staff for the future.

P.M. Normal need: programming making is at worst, but we need some marginal planning making in social services field.

M.H. Imperial programme has always come late. But if we have to be first to be last.

M.P. Where is the real plan - at the programme - is purely financial. Can only judge on back of individual projects and priority to be given to each on social services front.

M.H. Lay by is the sensible thing. But no great financial obstacle to hospital bed, but is specialised. But if a cut, can't distinguish between an authority and a centre. No more short.

Lab. Charge ofIDGE is that in both is turning; our hospital bed requires 10%.

C.I. But. Only £2m: but intricate basic problem.

This year's programme is already up £2m: need £2m for next year. So have one year: can proceed. Election is next year. Acceleration makes nonsense of planning. Would not be worthwhile to be offside. £2m now would help. If £2m released in 6 or 7 years. Part-painted picture can't go on. I should include a £2m programme: and £2m and help to establish proper procedures. Once £2m in hand, individual variations can't arise.

PM. £2m in 1968. We should have expected commitment and these must

M.H. £2m for programme or - what.

M.H. As I mean. Procedure can be sorted in accordance will low as it

3. Defence.

No int. for B.H.'s funeral. Also 1 breach of our 15th April advice.

C. H. Brent, L.S.

C.B. Brent: no new. Public spending must be reduced, systematically, to produce in E.P.B. - slacker more or less steady at same rate. Reduction must be planned and proceeding must be clear.

Incurred plans assume that £ 500 m. per annum for p.s. expenditure: GDP will grow at 3½% p.a. P.P. by 10%. Higher than r. revaluation. Private consumption: investible. 1 allow rather more for private sector and rate lower for p.s. exp., i.e. lower must be achieved over longer period. Overseas balance in P.P. reserve (over a short period leaving a reserve) investible by 1970. (As expected) £ 500 m. from India 1968.) i.e. plan for basic £ 60,000 p.s. to rise, i.e. total: how will these figures reconcile in fact - how do they agree with 1.30% p.s.?

P.P. to assume £ 500 m. from 1968, and must come out of 1 defence. - for which programme can settle for another year - but our case start now. For present cost 1 P.P. Base: if in fact, we can settle our programme. Civil programme (except for M.标的 more charges) are limited: and problems must be done. Let states on 1 and 1 basis. If states on 1 basis more - max. m. can stop the expenditure. I have pronouncements on individual programmes: how 1 am now in respect of Defence.

1. Start with A.P. - calculate under 1 basis. But 1 present price is less to him. I want to and programmes to take - for m. £ 500 m. might be available. And over last year's amount? by agreed limits on 1 difference to show £ 500 m. programme.
From the written content available, it appears to be a personal letter discussing various topics. The letter includes references to personal experiences, plans, and reflections. The writer mentions the principle of prepayment, the importance of planning, and the value of saving money. They also express concern about the current economic climate and the need for careful financial management. The letter touches on the importance of setting goals and making informed decisions about financial matters. The writer emphasizes the need to be proactive in managing personal finances and to consider the long-term implications of current actions.
P.S. Can't make it clear as received copy, please note that the following program - in capital: para 18(a), but 18(b) only on the understanding.

C.E. July. On social services, new scheme to be introduced. For payment, 1st a direct charge on services. Sickness to be added even 60 to 65 for M.E. recipients (not possible for U.A.). Must understand para 3 M.P.'s accordingly.

C.E. Part 1. Parcei sent 30.00 prepaid: but the service will be for C.E.

P.S. Disability benefits explained by low base-rate: per capita of pop. By result is far smaller than that of more than industrialised European countries. Rate of basic tax the same £35 per p.a. And present N.P.W.B. schemes to change present program (this is hopefully understandable) is understandable.

P.S. Accept 5% increase (less at last). This is the necessary as a minimum and practically, one fails completely. But these arguments need to be proved further. How is 5% a long way? How 4½% works?

This must be given fair consideration and ensure heavy tax incentives.

Also, a certain 5% increase (less at last) must be given fair consideration and ensure high productivity.

M.E. Can understand it's times. & real resources must be real tax - like value for money.

M.E. High because little revenues and tax. M.E. must have same way to stimulate increase in real resources.

[Signature: H.P., H.P.]

M.E. I think system now or not enough but part of it needs to be. Enforce all levies. Must be assumed of society will continue unchanged.

M.A.P. I think levies to increase poor is to have poverty. Open question to poor income security. Must be large farm programme laws too: and social programme too, but for now. Decided in early.

M.E. Accept principles in principle. But must be able to plan ahead: I have been in similar situations: but, I cannot accept para 3 & M.P.'s. I mean G.B. only committed to provide all payments. Must be true, will outcome of social impact? I refer to in terms, I am committed to C.E. Early, must cannot accept via & M.P.'s of M.A.P.

C.E. Reply to announce: but coming on M.P. must stand.

M.E. If major is only £35 now, my share is going to become larger. B.P. programme will give more help. Must help to provide employment. Also important as reference to service policy. I think there is pressure from points.

G.E. 2 p.m. have been 30.00 and expect B.P. Could, I informed service, points to
